Indore, India

Dec 2021 – July 2022

- **Establishing & Managing:** Established and managed a community of **over 600** people, Increased the participation rates in various community clubs & live sessions **by 50%**
- **Instructor – Game Development:** Guided **5+ students** in creating their first Game development Project using JavaScript, made them familiar with open source contributions and deployment process.

PROJECTS

VOGUE-ECO : (React.js, Tailwind, Appwrite, Docker, Alan API)

| [Link](#) | [Github](#) | Dec 2022

- The website focuses on the rising issue of carbon footprint dumped by the fashion industry.
- Uses **AppWrite**, **Docker** and **Alan API** to handle the back-end and React.js with Tailwind CSS for the Frontend.
- Provides a platform to donate old clothes for recycling and participate in plant a tree initiative.
- Provides a certificate for planting trees, and uses a **voice assistant** to fill the form.

PERSONAL PORTFOLIO : (React.js, Tailwind CSS, AOS)

| [Link](#) | [Github](#) | Jan 2023

- Designed and created my own personal portfolio using **React.js**, **its libraries** and **Tailwind CSS**.
- Also uses **AOS** for various animations and Formspre to collect the form data & contact me personally.
- It showcases my various projects and my journey in the tech industry.

SKILLS

- **Languages:** Java, Javascript, C++, Python, TypeScript
- **Frameworks/Libraries:** React.js, Bootstrap, TailwindCSS
- **Tools:** Git, Github, Appwrite, VSCode, IntelliJ IDEA
- **Databases:** Appwrite, MySQL
- **Others:** Data Structures & Algorithms, Technical Writing, Team Management
